

foldaway desk

The Effuzi 'foldaway desk' provides a versatile and compact desking solution for lecture theatre and conference centre environments.

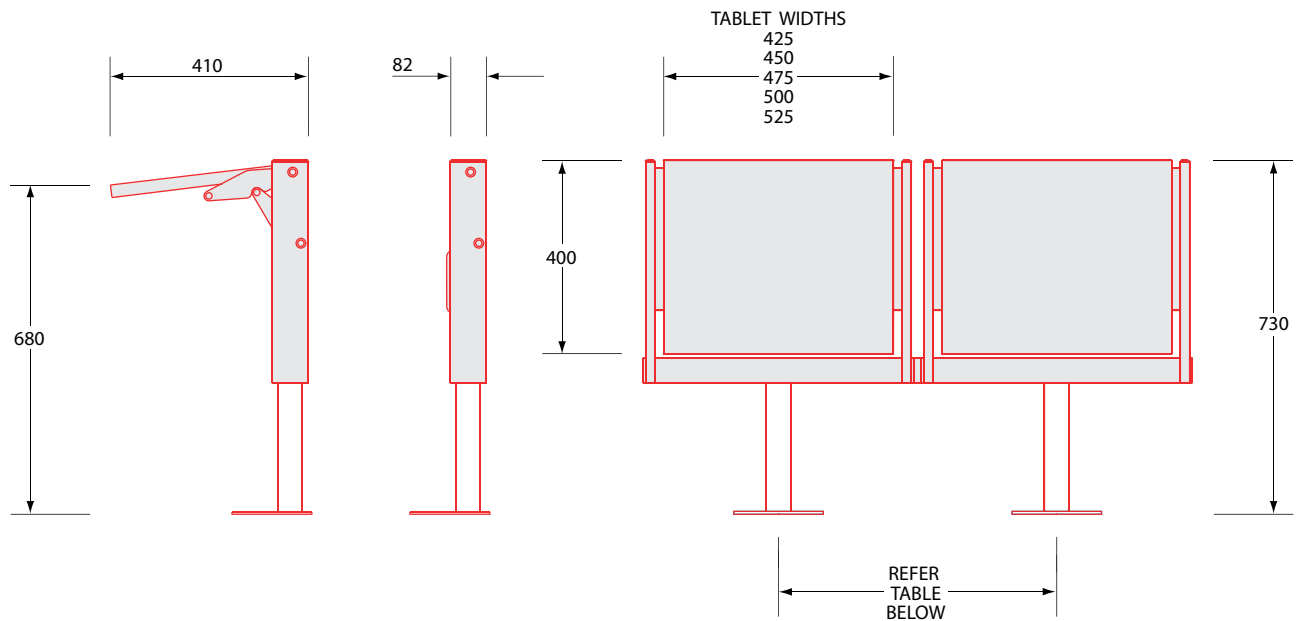

The hinge mechanism rotates on nylon pivots ensuring a quiet, smooth and continuous movement. When in the down position, the desk surface nests within the frame body, optimising space and ensuring easy foot traffic flow.

A low pressure laminate desk surface provides maximum durability for heavy use environments while the robotically welded steel inner framework ensures strength, durability and trouble free maintenance.

Contact us to discuss tailoring your desk design to meet your specific requirements. Optional features include modesty panels (*pictured right*) wheelchair swivel design option, floor fixing options and surface colours and specifications.
